Amarind,

The new POS #'s have been set up under group m9 (AUTO SPORT). I have asked Neodata to transfer the stock to Kearny. They should ship by the end of this week or early next week at the latest.

If you need other information, please let me know.

Artie (Kearny) - You will need to set up an in house P.O. to receive. Give me a call when you get this message.

Mike and Mike,

Not sure which of you should handle this, so I'm addressing you both.

BACKGROUND

As you know, the 1995 Van Program (5/1/95-10/31/95) will give away some leftover MCS items to consumers in return for proofs of purchase.

ISSUE

Currently, Shaving Kits and MCS Duffle Bags are in NeoData and must be moved to KDC to be shipped to Powerforce warehouses.

NEXT STEPS

The following quantities need to be received by KDC during 3/95 (please work out exact date with Sandi, obviously incentives must be rec'd before packing and shipping to Powerforce warehouses begins):
